

## USING YOUR WORKING WITH DOG CANVA TEMPLATES

### How to **Make a Copy** to Use in **Your Own Account**

- Register an account or login to Canva
- Click on the link on the Working With Dog page (this will open the template in your account)
- **Click on File** in the status bar
- Select **Make a Copy**
- This will open a new window with the copy of the design saved to your account
- **Change the name** of the file
- Your changes will be saved automatically in Canva
- Once you have **made a copy** and **renamed** the template you will find it under **All Your Designs**

### VERY IMPORTANT NOTE

You **MUST make a copy** and **ONLY make changes** to **your copy** otherwise you will be editing the original file and it will change it for everyone downloading after you. You will also not be able to access your changed templates.

### Library Images

- For your designs, you can use your own images or the free or premium images uploaded into the Canva library
- The images used in the templates are a combination of Canva free images or Unsplash images (with changes made so they can be used freely)
- You can swap the images for your own as long as you own the legal rights to those images

### *Legal Notes*

- *These templates are not affiliated with Canva in any official way*
